DANGER AT HOME

Accusing a person of complacency toward the war is tantamount to an insult. Everyone likes to think he is doing his part to achieve victory and doesn't like to be told otherwise. There is no such explosive reaction, however, when complacency is charged with respect to domestic issues. Many people believe domestic issues are something for politicians and theorists of doubtful ideals, to settle among themselves. If they persist in that belief, the republic, and individual liberty will eventually be destroyed as completely as if the nation had been overrun by the mechanized hordes of the dictators.

A revolution is impending in this country. It may be a bloodless revolution, but nonetheless a revolution—a revolution about which no freedom-loving American can be complacent. At the present moment, the country is existing in a vacuum, irrespective of our apparent unanimous pride in the achievements of private industry in producing for war, the stage is being set for the substitution of government-owned industry on a large scale for privately-owned and operated industry. This is revolution. It is revolution because it will change our form of government.

No government can govern and employ the people it governs, and still remain democratic. So far, the people do not seem to realize this. If they did, they would not sit back and complacently allow the electric power industry to be slowly socialized. They would be fearful of labor legislation which promotes government ownership, as in the case of coal mines; they would be alarmed over the fact that a large percentage of industry is already owned outright by government as a result of the war emergency; they would be indignant that agencies of government, supported by the taxes they pay, are "planning" the deliberate destruction of the American system of free enterprise, by permanently socializing the natural resource and transportation industries.

The same kind of complacency which very nearly led to military disaster, is now dulling our sensibilities to dangers at home. The depth of the danger can be measured in the words of Fulton Lewis Jr., nationally known radio commentator: "To me it is shocking and frightening in the extreme that those in Washington who conceived the Four Freedoms didn't have sufficient acquaintanceship with real Americanism to have included in their list the most important and the most vital freedom of all...Freedom of Individual Enterprise."

Extension Service Hits Oven Canning

A score of accidents resulting from the use of the oven canning method have recently been reported, according to Miss Hilda Faust, extension specialist in nutrition, University of California Agricultural Extension Service.

Oven canning is not recommended for any product because of the danger of food spoilage and accidents, Miss Faust warned. It does not guarantee cooking temperatures that are adequate to sterilize the product. This is due to several reasons: the jars heat slowly and unevenly in the air of the oven; the heat regulator may indicate a temperature higher than that actually reached in the oven; and even in a hot oven, the temperature within an unsealed jar is only that of the boiling point of its contents, about 212 degrees F.

The danger of explosion is increased by the use of jars with glass tops, but accidents may also occur with other types of lids. Explosions can not occur in hot water bath canning because under these conditions jars will never heat above the boiling point.

"It is because of both spoilage risk and explosion danger that the University of California is frowning on oven canning. The fault, of course, is not the oven itself," Miss Faust said, "but is due to the simple physics involved."

STATISTICS

T. C. Rice, recorder for San Mateo county, reported 127 births, 93 marriages, and 96 deaths for the county during July, 1943. The total of new babies exactly duplicated the number for July of 1942, when 127 arrivals were recorded. In 1942 for the same month there were 71 marriages and 109 deaths.

Do you read
the "papers"?
?

Certainly, everyone reads the "papers" for latest news, these days. But does your copy of the papers include local news of your neighbors, your city government, your home defense efforts, announcements by YOUR stores?

Not unless you read The Daly City Record, it doesn't. For San Francisco news is not Daly City news. Tax rates, civilian defense regulations, city government news (even county government news) from San Francisco do not apply in Daly City. You won't find your school news, organizational activities, etc., in San Francisco newspapers.

Ideas for that main course

It can be a fascinating game these days—trying to figure out what to have for that main course. Despite shortages in some foods, those main dishes must be hearty, appetizing, attractive and budget-fitting. Here are some suggestions that may help.

MACARONI MEAT LOAF—Cook 2 cups macaroni in boiling, salted water until tender. Combine with $\frac{3}{4}$ to 1 pound ground meat, beef, lamb, veal or pork or combinations of these meats. Add 2 cups chopped tomatoes, chopped onions and green peppers to taste, and season with salt and pepper. Add 1 or 2 beaten eggs and turn into a greased loaf pan and bake in a moderate oven (350° F.) for about 1 hour until meat is done. It is your meat and starch courses all in one, and it makes meat go twice as far.

STEW A LA MODE—Cook stew as usual, adding vegetables (but not potatoes) in season. When done, thicken the liquid and pour gravy, meat and vegetables into a casserole. Top with hot, mashed potatoes, and place in a hot oven (450° F.) for about 10 minutes or until potatoes have turned a toasty brown. Serve at once. This stew may well be a company dish for all its goodness and eye appeal.

CHEESE DUTY—Saute 2 or 3 tbsps. chopped onion until limp, then add 2 or 3 chopped tomatoes, salt, pepper, and a dash of sugar and simmer for about 10 minutes. Add $\frac{1}{2}$ to $\frac{3}{4}$ pound of grated cheese and cook until melted and thoroughly blended. Finally, add 1 beaten egg gradually and stir constantly to blend in the egg smoothly. Cook just a minute longer until velvety in consistency. Serve immediately on thin, hot toast.

NEPTUNE PIE—Place 1 to 2 cups cooked, flaked fish in a greased casserole. Make 2 cups white sauce, and fold in a well-beaten egg and season with salt and pepper. Pour this sauce over the fish and top with 1 cup fresh bread crumbs, dot with bacon drippings or other fat, and bake in hot oven (425° F.) for about 15 minutes or until crusty brown. Grand for Friday and any other day. Use any kind of fish, canned, fresh cooked, or shell fish.

THE AIRCRAFT WARNING SERVICE

IS AN ESSENTIAL PART
OF THE U. S. ARMY AIR FORCE

This winged emblem is the official insignia of the Warning Service. You will notice that it has the "U. S. Army Air Forces" lettered on it. Civilians who play it are a real part of our Air Forces.

150,000 loyal civilians know that Posts of the Warning Service must be filled. The job must be done by either civilians or by fliers or soldiers badly needed at our battle fronts. AWS volunteers release men and equipment for fighting duty.

The AWS volunteer is correct in assuming that he releases many planes to the fighting front. If it weren't for the AWS we would need far more fighter planes on the Pacific Coast than we now have, in order to do the same job.

"Seventy-five families depend on me" is what each volunteer can truthfully say. Reliable statistics show each person serving on a Ground Observation Post in a Filter and Information Center is responsible for seventy-five homes as his share of protection.

A FEW OTHER FACTS ABOUT THE AWS:

The Ground Observer Corps is that part of the Aircraft Warning Service that reports the flight of all aircraft over the landward areas. Loyal Americans, especially those in smaller towns, can usually find an Observation Post near their homes on which to serve.

The Aircraft Warning Corps is that part of the Aircraft Warning Service that receives and evaluates all reports about the movements of aircraft. There is a constant need for volunteers to join the Aircraft Warning Corps.

There is important work for *everyone* in the Aircraft Warning Service . . . father, mother, sister, and brother. Even the physically handicapped can serve. The training is brief, interesting, and educational, after which you devote only a few hours a week to a vital job.

Many additional workers are needed *NOW* to man the hundreds of military installations in this vital area. Get into this select corps of unsung heroes and heroines who are protecting our vital American frontier.

American Retailers
FIGHT for FREEDOM!

As members of the army of American retailers who see active duty on the home front, we fight to provide foods for those who must "carry on" in these trying times.

At the "top of the hill" in Daly City, Milo's Market brings you the best of foods obtainable the country over. Department heads and members of their staffs are experts in their lines, capable and anxious to help with your shopping problems. Prices are highly competitive, made possible by our really BIG STORE operations.

Check these: nationally famous brands of staple and fancy groceries; quality cuts of prime fresh and cured meats; huge selection of daily-fresh vegetables and fruits; and a full choice of fresh fish and poultry. Four reasons why you should do all your family food buying at MILLO'S MARKET.

Don't neglect essential meats in planning wartime menus. Of course it's hard to get (how well we know!); takes a lot of time and trouble with stamps, etc. But meat IS essential, nonetheless, in keeping your family's health in good condition.
